

## Infection Prevention and Control

Anglian Community Enterprise acknowledges its duty to protect patients, staff, carers and visitors from the risk of avoidable healthcare associated infection. We are committed to ensuring that safe working practices are utilised by those providing healthcare services to our patients.

We recognise that we have a duty of care to ensure we comply with The Health and Social Care Act 2008 and to protect service users/patients; staff; contractors and visitors from infections and supports the need for effective systematic arrangements for surveillance, prevention and control. We are therefore committed to reducing the incidences of healthcare associated infections and more importantly, maintaining that reduction.
